If you...

are looking for one-time use clothing

have unwanted clothes collecting dust

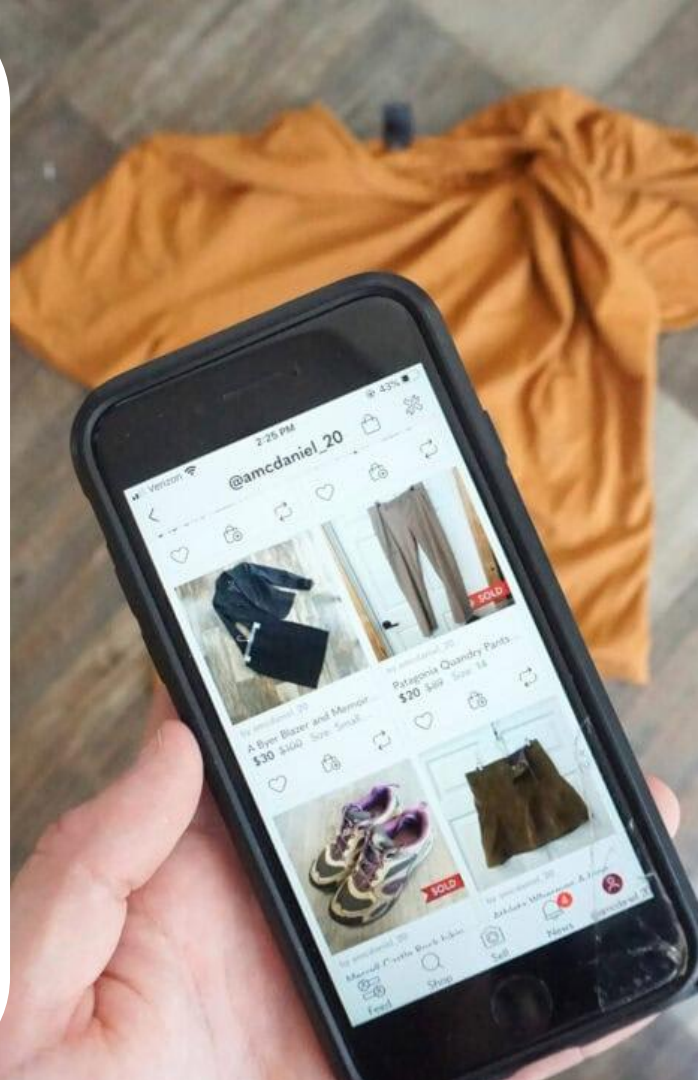

want a sustainable way to shop

want to save or make money

Closet Circle is for you!!

Vision Statement

For ***eco-conscious individuals*** who want a sustainable, community-driven way to buy, borrow, and sell clothing, **Closet Circle** is a sustainable, social fashion platform that enables users to extend the life cycle of clothing and protect their wallet. Unlike traditional fast-fashion retailers or generic resale platforms, our product fosters a circular economy with a user-friendly interface, social connections, and a focus on sustainability.

Why We're Here

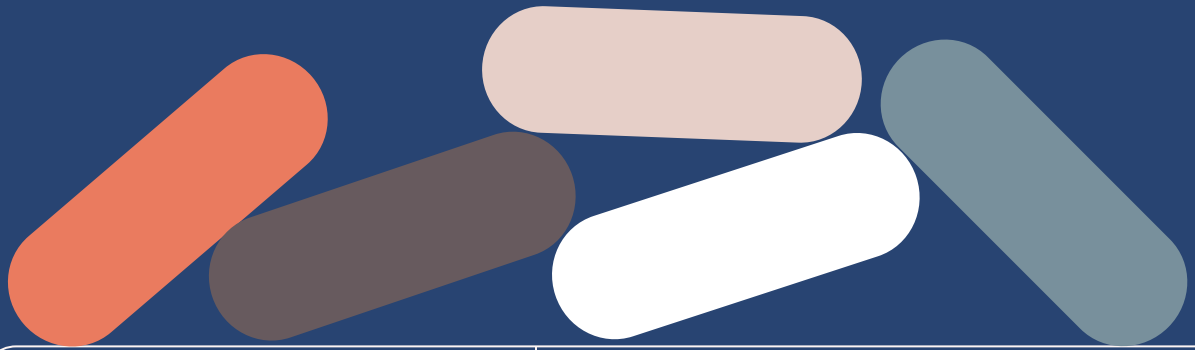

People have closets full of clothes they don't wear… and yet, no easy, fun way to swap or sell with friends.

- The average American discards 81 lbs of clothing each year, fueling landfill growth and resource waste
- People want more sustainable and social ways to shop (i.e. Thrifting, Depop, Vintage stores)

- 92 million tons of textile waste
  - Landfills/incinerated leads to harmful emissions
- 35% of ocean plastic pollution: synthetic fabrics shed microplastics
- Garments worn 40% less compared to 15 years ago

“Fast fashion makes clothing repair unnecessary, uneconomical, or impossible”

Main Features

1. Discover Trending Items
2. Follow Your Friends
3. Personalized Profiles
4. Seamless Transactions
5. Transparency and Trust
6. Eco-Conscious Shopping and Circular Economy
